"My shamanic explorations have thoroughly transformed my life! I am grateful to Allie and Evie for guiding me on my journey, for helping me to trust in my self and being able to live each day with Spirit."

"...I am living with the deepest sense of peace I have ever had in my life. I feel more "plugged in" to the things that really matter and give less credence to the things that do not matter. I am much more confident and direct in my dealings. I am more honest with myself, more caring to myself, and more effectively moving through life's storms."

Spirit Passages' Two-year Apprenticeship

This program was created to provide you with experiences of the ancient ways of the shaman. Benefits of this program include opportunities to experience life with more power, confidence and joy. It is an excellent opportunity to gather power for yourself, your family and your community.

You will learn classic healing methods such as extraction, power animal retrieval, soul retrieval, sound doctoring, deprojection, psychopomp and absentee healing with an emphasis on ethical responsibility, clear diagnostic work and how to effectively follow the guidance of Spirit. You will have opportunities to experience initiations, group rituals, spiritual manifestation and to work directly with your guides.

The two-year program meets for a total of six intensive weekends at a lakeside location in mid-coast Maine. You need to be able to journey successfully to the Upper and Lower worlds for this program and feel a strong connection to your Teachers and Power animals.

Please provide a two-page letter which details your personal reasons for wishing to enter the apprenticeship along with the registration form on the back of this brochure. This letter should include where you learned journeying.

You can use this program as the prerequisite for the Spirit Passages Graduate Program.

Spirit Passages' Graduate Program in Advanced Shamanism and Dreamscaping the New Earth

This intensive for shamanic practitioners includes not only more advanced shamanic methods from around the globe, but takes shamanic work to a much deeper level that is effective for these times with a strong

focus on fully integrating spiritual practices into your daily life.

Our health depends on the health and power of our environment. Our ecosystem requires our heart-felt, loving participation to regain it's vitality. This program will support your personal relationships with Nature.

Each weekend of the program will have one of the four elements - water, air, fire and earth - as it's unifying theme. Medicine for the Earth, will be included in this program but on a far deeper level. We will be transmuting toxins not only in water, but in soil and air, as well. In addition, you will explore the powerful new forms of healing which are uniquely suited to today's troublesome diseases.

Miracles that are needed in these times require changes in ourselves as well as developing Reverent Participatory Relationships with the many "Spirit People" that exist in the Middleworld. You will also be supported to develop relationships the living beings with whom you share the ecosystem.

You will interact with your *Blood, Milk and Spirit Ancestors*--and your three lines of *Descendants*. You will have opportunities to receive supervision of your personal shamanic practice, as well.

The program will meet for a total of four intensive, long weekends at a lakeside location in southern, coastal Maine. You will be *bringing the work home* by doing journey work, specific exercises and ceremonies on your land or near to where you live. You also will be supported to create a National Wildlife Federation Certified Backyard Wildlife Habitat.

You must have graduated a Spirit Passages Two-Year Training OR an FSS Three-Year Training OR Sandra Ingerman's Teacher Training OR another advanced shamanic training to join this program.

Please provide a two-page letter which details your personal reasons for wishing to enroll along with the registration form on the back of this brochure. This letter should include which shamanic training program you successfully completed.
